

Streakwave Wireless Announces New Distribution Agreement with WaveRider by Vecima Networks Inc.

2010-02-04 09:37:33

San Jose, CA – Dec. 15 /Xpress Press/ Streakwave Wireless, Inc. (“Streakwave”), a global distributor of wireless network solutions announced a new distribution agreement today with WaveRider by Vecima (“WaveRider”), a leading provider of enterprise class 4.9 GHz, 5.8 GHz and 900 MHz Non Line of Sight (NLOS) Wireless Broadband Systems.

“Adding an outstanding product line like WaveRider, substantially enhances the product portfolio of our company,” said Carl Moberg, President and CEO of Streakwave Wireless. “WaveRider is a well known name in the industry for unique and quality products that outperform competitors. Having a line like WaveRider continues the tradition of Streakwave adding top of the line, cutting edge products that our customers have come to expect from us.”

“Our goal is to deliver high quality, affordable products to the market place,” said Jim Shedden, Director of WaveRider Sales at Vecima Networks. “Our 900 MHz point to multipoint OFDM system and our Enterprise class backhaul products are known for their ease of use, high throughput, performance and reliability. Bringing these products to market through a distribution partner like Streakwave will significantly increase our exposure to the market place and result in increased sales due to Streakwave’s very aggressive nature and strong customer base.”

Streakwave will stock the entire line of products offered by WaveRider in all three of its nationwide warehouses in San Jose, Salt Lake City and Cincinnati. Streakwave will also stock many of the most common accessories needed to install and use the WaveRider products.
